

## TO OUR VALUED CUSTOMERS

When placing cart to street/alley for pick up **please follow the above diagram**. This allows for the automated arm on the trucks to collect trash properly. Carts turned sideways or backwards **cannot** be picked up without spillage or damage to the cart.

Also, if no curb, please place the cart to the edge of asphalt to prevent the truck cracking the road edge.

Please keep in mind that the following items are **not** a part of your normal waste collection pick up and may **not** be placed in your cart: paint, paint thinners, oil, oil filters, oil rags and insecticides. In addition, the following items require special handling and may **not** be placed in your cart: Appliances, batteries, chemical products, construction debris including rocks, cement blocks, and or bricks of any kind, electronics, flammables, fluorescent bulbs, hazardous waste, pesticides, liquids, medical waste/needles, and tires of any size.

Thank you,
